

Consultant Paediatric Nephrologist, Starship Children's Health -027325

Description

**Consultant Paediatric Nephrologist
Department of Paediatric Nephrology, Starship Children's Health**

Applications are invited for the position of Paediatric Nephrologist at Starship Children's Hospital, Auckland, New Zealand. The position is full time and will replace a retiring consultant. The successful applicant will be working in a dedicated multidisciplinary team that currently consists of 3 consultants and 2 nurse specialists providing a high quality clinical service. The person will participate in all aspects of clinical service, teaching, quality assurance activities with opportunities for clinical research. Vocational training in paediatric nephrology is required.

Starship Children's Hospital is the only comprehensive children's hospital in the country serving a population of approximately 1 million. The department of nephrology provides comprehensive care to children with renal disease throughout New Zealand and is the only national referral centre for paediatric nephrology. The service has one of largest chronic dialysis programs in Australasia with up to 6 kidney transplants been undertaken each year. The service provides extensive outreach support to children with kidney disease. The institution has a full complement of subspecialty medical and surgical services including both general and cardiac paediatric intensive care facilities

The successful applicant must be eligible for specialist registration with the Medical Council of New Zealand
